Copenhagen, Denmark

Summary

Full Stack Web Developer with experience in the MERN stack, REST API development, and pivotal web technologies such as JavaScript (ES6), React, Node.js, MongoDB, Express, HTML, and CSS.

Proficient in elevating user experience and refining interface design for dynamic web applications.

My journey has always been driven by a profound passion for knowledge and creation, which has steered my career trajectory from an early age. With a rich background spanning over a decade in Graphic and Editorial Design, I bring a unique fusion of creativity and technical prowess to development endeavors.

Additionally, my prior experience as a chef instilled in me a fervent dedication to creativity, adaptability, and meticulous attention to detail—qualities seamlessly integrated into my development work.

Education

Full Stack Web Developer Certification

Ironhack

2024

- 3 months intensive Web Development Training | +400 hours. 3 big projects
- Built and deployed web apps based on MERN stack connected to REST API: HTML, CSS, JavaScript (ES6), React JS, Express.js, Node.js, MongoDB, Mongoose, Postman.

Projects

EventSlap

Full-stack application that allows logged-in users to manage all the events and venues that they own in the database, doing full CRUD.

SPA frontend, built with React, consisting of multiple views and implementing all CRUD actions for logged users.

REST API backend built with Express.js, MongoDB, and Mongoose.

TopTravelTips

This project consists of multiple views, providing a user-friendly interface for exploring and sharing travel advice.

Single Page Application (SPA) using React. Integrated with an external API, the React application allows users to perform CRUD operations.

Paperboy

Small remake of the 80s legendary paperboy arcade game.

Browser-based game created using vanilla HTML, CSS, JavaScript, DOM manipulation, and Object-Oriented Programming (OOP).
