SUMMARY

Full Stack Developer with a solid design background, adept at thriving in team settings and delivering exceptional results under pressure. Committed to prioritizing user experience and interface design to develop dynamic web applications.

Proficient in the MERN stack, REST API, and essential web technologies such as JavaScript (ES6), React, Node.js, MongoDB, Express, HTML, and CSS.

Bringing over a decade of Graphic and Editorial Design experience, I offer a unique blend of creativity and technical expertise to development projects. Also, my background as a former chef has instilled in me a strong sense of creativity, adaptability, and attention to detail, qualities that seamlessly translate into my work as a developer.

Dedicated to continuous learning and growth, I am enthusiastic about leveraging my skills to make a meaningful impact. I am eager to contribute my diverse talents to impactful projects and collaborate with dynamic teams to achieve shared goals.

- Meticulous in ensuring the highest quality in every aspect of my projects

PROJECTS

EventSlap

Full-stack application that allows logged-in users to manage all the events and venues that they own in the database, doing full CRUD.

- SPA frontend, built with React, consisting of multiple views and implementing all CRUD actions.
- REST API backend built with Express.js, MongoDB, and Mongoose.

https://eventslap.netlify.app/

TopTravelTips

This project consists of multiple views, providing a user-friendly interface for exploring and sharing travel advice.

- Single Page Application (SPA) using React. Integrated with an external API, the React application allows users to perform CRUD operations.

https://toptraveltips.netlify.app/

Paperboy

Small remake of the 80's legendary paperboy arcade game.

- Browser-based game created using HTML, CSS, JavaScript, DOM manipulation, and Object-Oriented Programming (OOP).
